

Community Leadership in Planning for Sea Level Rise

Fly, Liz¹ and Frank Knapp²

¹*SC Sea Grant Consortium, Carolinas Integrated Sciences & Assessments*

²*SC Small Business Chamber of Commerce*

The Beaufort/Port Royal Sea Level Rise Task Force is a collaboration of non-profits, university resources, small business owners, private citizens and public officials working to increase climate resilience in the Lowcountry. The presentation will describe how the task force is using scientific data and technology to analyze future sea level rise, develop resiliency recommendations, and educate the public in two small South Carolina coastal towns with limited resources.
